

Errata and Corrigenda

The publishers and the authors would like to make the following corrections:

Keller, B., Kast, P. and Hennecke, H., Cloning and sequence analysis of the phenylalanyl-tRNA synthetase genes (*pheST*) from *Thermus thermophilus* (1992) FEBS Letters 301, 83–88.

In the nucleotide sequence shown in Fig. 3 the guanosine (G) at position 2480 should be deleted, and a cytosine (C) should be inserted between positions 2520 and 2521. The *pheS* and (corrected) *pheT* sequences have been deposited in the EMBL Database under accession no. Z12118.

Rodriguez-Arango, E., Arango, R., Adar, R., Galili, G. and Sharon, N., Cloning, sequence analysis and expression in *Escherichia coli* of the cDNA encoding a precursor of peanut agglutinin (1992) FEBS Letters 307, 185–189.

As the result of a typographical error, a scale bar appeared to the left of Fig. 2. This scale bar has no bearing on the figure and should therefore be ignored.

Yazaki, T., Miura, M., Asou, H., Kitamura, K., Toya, S. and Ujemura, K., Glycopeptide of P0 protein inhibits homophilic cell adhesion: Competition assay with transformants and peptides (1992) FEBS Letters 307, 361–366.

Table I of this paper was wrongly presented. Please see below for the correct representation of this table.

Table I

Sequence of synthetic peptides and the glycopeptide of P0 and the effect on cell–cell adhesion

Peptide	Sequence	% Inhibition
None		0
1	(43)GGRDAISI(50)	20.3
2	(83)IVIHNLDY(90)	7.6
3	(90)YSDNGTF(96)	50.2
4	(100)VKNPFDIV(107)	5.1
	CHO	
5	(91)SDNGT(95)*	85.1

*Glycopeptide
